

A FURTHER CONCERN WITH THE NWMO'S PLAN: POSSIBLE SURFACE STORAGE OF WASTE

This provision is clearly described in NWMO's Backgrounder Document, in NWMO's "Choosing a Way Forward" document, and it exists in every Adaptive Phased Management (APM) document from 2005 up to and including their most recent APM for 2025.

"Provision for optional temporary shallow storage at the central site if needed*"

*Temporary shallow storage at the deep geological repository is optional and not currently included in the Nuclear Waste Management Organization's implementation plan.

If "temporary shallow storage" is implemented, it may allow for **shallow storage of high-level nuclear waste at the central site** before the DGR is even constructed.

Concerned? Learn more and join us! [**wethenuclearfreenorth.ca**](http://wethenuclearfreenorth.ca)
